

Disclosure Index
Minimally Invasive Surgery Week 2022

The Society of Laparoscopic & Robotic Surgeons (SLS), in accordance with the Criteria and Standards for Integrity and Independence in Accredited Continuing Education of the Accreditation Council for Continuing Medical Education (ACCME), has implemented a process where all individuals in a position to control the content of a CE educational activity have disclosed to SLS all relevant financial relationships with any ineligible company that they have had over the past 24 months. There is no minimum financial threshold; disclosure must be made regardless of whether the person views the financial relationships as relevant to the education. **The ACCME defines an ineligible company as any entity whose primary business is producing, marketing, selling, re-selling, or distributing healthcare products used by or on patients.** SLS has implemented a mechanism to identify, mitigate and disclose relevant financial relationships prior to the education activity being delivered to learners.

As an accredited CE provider, decisions in the planning process of this conference were made free of the control of ineligible companies. Disclosures have been received and reviewed and include all persons in control of content including, but not limited to, Planners, Reviewers, Presenters, and Moderators. In accordance with the SLS's Mitigation Policy, all disclosures pertaining to this CE Activity have been mitigated. Additionally, disclosure at the time of participation must be made if discussion includes the use of products for which they are not labeled (i.e off label use).

All of the relevant financial relationships listed for these individuals have been mitigated.
